## *Our Story*

In 2016, after it was time to move on from her first startup, Elizabeth Carberry embarked on her greatest journeys - starting Elizabeth Carberry Creative and motherhood. Since then she has provided services in creative direction, styling and wedding planning and is now a mother of three! Her blog and social media paint a picture of the beautiful story of balancing motherhood with the work she does for her clients in a real and authentic way. Through these platforms, she hopes to share people, brands, tips and tools to accomplish her personal and professional goals and help to make the lives of other working mothers and creative entrepreneurs feel supported and easier.
